

# Christian Science nurse Scope of Services

**Updated November 2018**

Christian Science nursing is grounded in the Bible-based theology of Christian Science, which includes Christ Jesus' commandment to love one another (see John 15:12). This practical care is carried out with prayer, wisdom and skill, supporting the patient's decision to rely on Christian Science for healing, which includes treatment by prayer, generally from a Journal-listed Christian Science practitioner.

The founder of Christian Science, Mary Baker Eddy, established the authority and standard for the Christian Science nurse in 1908, in the *Manual of The Mother Church* (Page 49, Article VIII; Section 31):

*Christian Science Nurse. SECT 31. A member of The Mother Church who represents himself or herself as a Christian Science nurse shall be one who has a demonstrable knowledge of Christian Science practice, who thoroughly understands the practical wisdom necessary in a sick room, and who can take proper care of the sick.*

*The cards of such persons may be inserted in The Christian Science Journal under rules established by the publishers.*

Individuals advertising in *The Christian Science Journal* and *The Herald of Christian Science* have presented satisfactory evidence that they fulfil the requirements in this By-Law.

This *Scope of Services* is intended to clarify for patients and other interested persons what they may expect when engaging the services of a Christian Science nurse. It touches briefly on the main aspects of, and ethical considerations related to, those services.

- Using and administering medically oriented techniques or technology; including, but not limited to, administering food or liquids with medical equipment, e.g.— intravenous feeding;
- Manipulation, massage, physical therapy
- Assuming responsibility for a patient's financial or household business transactions;
- Intruding on the private relationship between the patient and the Christian Science practitioner, or between the patient and his or her family;
